

# Dreadful Shadows, Dead Can Wait (Live)

Mourn for existing, waiting for deliverance  
The sky crashes down  
The dead wait for a long time  
The borders of your life were early programmed  
You're just a piece, you have to run forever

The dead can wait  
The dead can wait  
The dead can wait, can wait  
The dead can wait  
The dead can wait  
The dead can wait, can wait

Some night it could happen;  
A dream will be reality  
You stand there alone,  
You don't want to wakeup  
You didn't get - to die  
You don't know how it is,  
You never made it before

The dead can wait  
The dead can wait  
The dead can wait, can wait  
The dead can wait  
The dead can wait  
The dead can wait, can wait  
You're dying, but living,  
You're dying, but living,

Our fantasy, our fantasy devoured ourselves...  
Our fantasy devoured ourselves...

The dead can wait  
The dead can wait  
The dead can wait, can wait  
The dead can wait  
The dead can wait  
The dead can wait, can wait

The dead can wait  
The dead can wait  
The dead can wait, can wait
