&lt;/lyrics&gt;

softly between sleep and life,  
in my dreamlike thoughts, I wish always  
that I will reach you...

unable to step on even 'a little' distance,  
always the way forward was locked.  
I want to see you, but am unable - these days pile up;  
my strong heartbeat became dwindled and cut.

If a thing called 'eternity' exists,  
I want to believe, even if I have to take the long way.  
scathed before because of being clumsy,  
I understand, I will not stop, I will not give in to anyone.

I think of you  
and that alone makes my tears fall.  
in my dreamlike thoughts, I wish always  
that I will reach you...

I know too much about the me who pretended to be strong,  
even still, after that, my doubts have vanished.  
There are things I really want to show you,  
and so many more things I want to hear you say.

your smiling and your crying visage, i want to see all of it.  
the waitful me will stop, and I'll grab my chance.

I think of you  
and I feel that alone makes my heart grow stronger.  
in my dreamlike thoughts, I wish always  
that I will reach you...

I think of you  
and that alone makes my tears fall.  
in my dreamlike thoughts, I wish always  
that I will reach you...

Believe... la la, la la, la la  
Believe... la la, la la, la la  
Believe... la la, la la, la la
