

# Dream Street, The Dream Is Gone

Hey, I just gotta say  
Yeah yeah.....Just tell me...

Why did you have to lie?  
Can you hold your head up high?  
After all this time I'm not your fallback guy  
You didn't wanna 'Play'  
Baby, I won't take the blame  
That's why I must dismiss you  
I won't miss you  
'Cause I don't intend on spending my whole life dreaming  
I've been down that street before

(CHORUS)  
It was magic when we met  
And I never will forget  
Baby after all is said and done  
The dream is gone  
'Cause I just don't understand  
We had the future in our hands  
Baby there's no way to carry on  
The dream is gone

Who said that love was fair?  
It's gone beyond repair  
If you're thinking of taking me over  
Just don't go there  
I gave with all my heart  
But you tore it all apart  
Look how that silly love song  
Went so wrong  
'Cause I've always known I'd go out on my own  
Guess it was just a matter of time

(CHORUS)  
Such a close harmony  
But we lost the beat  
And now we're so far apart, oh yes we are  
Now it's my destiny  
Be anything I wanna be  
We could have reached for the stars

(CHORUS)  
No turning back, no no  
Such a perfect dream come true  
I gotta say goodbye, goodbye  
You crossed the line and I don't need you by my side  
So long, the dream is gone!
