

Dream, This Is Me (Remix)

[Puffy:]

Yeah, cm'on Bad Boy Baby.
This is the remix
Haha, you know how we do it.
Dream: Melissa, Diana, Ashley, Holly
Lets go baby cm'on
Oh boy I-m not the one who broke your heart before
And I don-t wanna make you hurt anymore
She had you pulling out your hair against the wall
But baby that-s not me at all
Woah ohhh ohhh ohhh.

You gotta see
Were different as can be
She and I are not alike
So don-t compare her to me
It doesn-t matter what happened then
In me you have a friend for life
You should know that
That was her and baby this is me

You get so nervous everytime I touch your hand.
I-m not the others who just took your heart and ran.
But everytime you say those things you make me feel so bad.
Why can-t you just give me a chance
Yeah yeah yeah yeah.

You gotta see
Were different as can be (We're 2 different people)
She and I are not alike
So don-t compare her to me (This is me, this is me)
It doesn-t matter what happened then (Doesn-t matter that was then)
In me you have a friend for life (Friends for life)
You should know that (Baby)
That was her and baby this is me

[Kain:]

Now understand when I met you.
It was love at first site.
Deep thoughts and talks the first night.
Tell her all how my past hurt life.
Comparing you to her waiting for our first fight.
Because she said the same things that you say.
And how love is only a game that fools play.
All night with her friends every Tuesday.
That's why I bought you a cell and a two-way.
I know it's wrong and it makes you nauseous.
But I'm not suspicious, I'm cautious.
And you know I want to love and trust you.
But it's really a lot to try and adjust to.
And I'm glad that you're on my team.
Defending when you're man when I fall on a scheme.
Baby you can have all my c.r.e.a.m.
It was a nightmare now it's all a dream.

Boy you had your share
You had your share
Of people taking you for granted
I know that you can-t it no more
I will be there (La la la la la la)
When things aren-t going the way you planned it (La la la la la la)
Don-t be afraid to let go (Yeah, yeah, yeah, yeah, yeah)

You gotta see

Were different as can be (No, no, no, no)
She and I are not alike
So don-t compare her to me (Don-t compare her to me.)
It doesn-t matter what happened then (It won-t repeat again)
In me you have a friend for life (I-ll always be your friend, forever.)
You should know that
That was her and baby this is me.
