

# Dreamscape, Winter Dreams

Winter dreams - silver shining  
Shattered scenes - endless night  
Winter brings changes  
Life turns into illusion  
I have to face the loss  
Snow's falling down on me  
Endless alone  
I'm waiting for the summer  
Cold winds are calling me  
I want to live again  
Watching the crystal star tonight  
Feeling the sorrow in disguise  
Afraid to speak - I'm fading inside  
I know it's freezing me  
When I'm dreaming  
There's tomorrow in my heart  
When I dream of you  
I long for your touch  
Nothing melts a frozen heart  
Dreamin' longing for a touch of you  
I'm bleeding  
I'm waiting for a sign  
I'm prayin' for a sign
