

# Dreamtale, Where The Rainbow Ends

In my dream I was in a valley  
By waters clear as ice  
Trees and mountains that surround me  
Nothing so beautiful have I ever seen  
Can a place like this these days still exist?  
A place people haven't destroyed yet  
There's no pollution, just fresh air  
There are no men who wouldn't care  
This is the paradise where I want to stay  
Where no one else can find a way

[Chorus:]  
Where the Rainbow Ends  
There I go, there I mend  
There's the land of the free  
There's the place where I want to be  
There I go - Where the Rainbow Ends

Mystery of this place keeps fascinating me  
It preoccupies my mind, time after time  
When I look at the sky and I see birds fly  
It's a play at my theatre  
Into this dreamland I always come back  
Where my life goes on in the same, safe track  
Take my hand and come with me  
I'll show you the place you've never been  
This is the paradise where I want to stay  
Where no one else can find the way

[Chorus:]  
Where the Rainbow Ends  
There I go, there I mend  
There's the land of the free  
There's the place where I want to be  
There I go - Where the Rainbow Ends

[Solo]

[Chorus]
