

# Dreamwalk, Let's Go

In a world grayed by duress  
We chose to live our lives this way  
Live to shine and to create  
It's sometimes hard, but it's OK

Did you know when it starts  
It's so hard to bring it down  
Down, you'll see!

Some these roads have been so blind  
Some of these times so unkind  
Still we're better off it seems  
As long as we can chase our dreams

Did you know when it starts  
It's so hard to bring it down  
Bring it down 'cause we

We had our vice  
We made it through  
And it's okay  
For me and you

Under no form duress  
Do you make \*???\* to confess  
We'd be better off with you  
And all the bullshit that you do

Did you know when it starts  
It's so hard to bring it down  
Bring it down 'cause we

We had our vice  
We made it through  
And it's okay  
For me and you

You're winning  
Standing against  
The things you hate  
Let's go, let's go  
(2x)

Let's go!
