

Dredg, Kayasuma

This is my fate
It won't change
I am hopeless

This is my fate
It won't change
I am hopeless

This is my fate
It won't change
I am hopeless

This is my fate
It won't change
I am hopeless

Where would I be now and where could I be if I grew up in someone's house in someone's home a different reality
Where could I be now without this fate in my life
What is my purpose here is it to feel right
Where could I be

This is my little life
Not for granted
Our lives are already said
Our lives are already determined

Where would I be now and where could I be if I grew up in someone's house in someone's home a different reality
Where could I be now without this fate in my life
What is my purpose here is it to feel right
Where could I be

This is my little life
Not for granted
Our lives are already said
Our lives are already determined

This is my fate
