

# Dredg, The Warbler

There's a self centered place  
that spins in the space  
where greed and envy rule...

and the stubbornness of opinions  
make everyone a fool  
everyones a fool, everyones a fool.

It's where attitude and egos shine  
and war is so fine tuned,  
it's so finely tuned, it's so fine tuned.

It's where trust is void and hates employed  
this idea(psyche) must change soon  
it must change soon...
