

Dredg, Uplifting

I watch the hawk land
A sign of good fortune
I watched it reach out for my hand it said
"You should revert back to the way you used to be
Because it will only help you in the end"
It's not an issue to let it in
Settle down
Settle down

Save your stories because they're all the same
You've had had your glory
Throw it all away
If you don't you will never change because
Give it time and watch it fade to gray

Not alone
I've straightened out crooked lines
I did it all alone
Got it done, I served my time
It's gonna take more you know
Settle down
Lay it down lay

Save your stories because they're all the same
You've had had your glory
Throw it all away
If you don't you will never change because
Give it time and watch it fade to gray

It's already gone
It's all right

All worries
No pleasure
It will open the ultimate treasure
This is how our status is measured
This isn't pleasure

Save your stories because they're all the same
You've had had your glory
Throw it all away
If you don't you will never change because
Give it time and watch it fade to gray
