## Dredg, Uplifting News

I watch the hawk land
A sign of good fortune
I watched it reaching out for my hand it said
"You shouldn't revert back to the way you used to be
You know it will only help you in the end"
It's not an issue don't let it in
Settle down
Settle down

Save your stories cause they're all the same You've had had your glory Throw it all away If you don't you will never change cause Give it time and watch your fame decay

You're not alone
I've straightened out crooked lines
I did it on my own
Got it done, I served my time
It's gonna take more you know
Settle down
Lay it down lay

Save your stories cause they're all the same You've had had your glory Throw it all away If you don't you will never change cause Give it time and watch it your fame decay

It's gone away Gone It's gone away

All worries No pleasure It will open the ultimate treasure This is how our status is measured This isn't pleasure

Save your stories cause they're all the same You've had had your glory Throw it all away If you don't you will never change cause Give it time and watch your fame decay
