

Drentch, Everything

I need your touch
I need your love
More than the air I breath
I need you

I want to be more like you
Change me
I long to know your heart
Reveal it to me

And how could I, live a day
Without you guiding me
How could I live a day
Without you next to me

You're everything to me
You're everything to me Lord
You're everything to me
You're everything to me Lord

I need to hear you
Speak to me
When all is lost and
Hope is gone
You're all I seek

pre-chorus

chorus

I need to hear you
Speak to me
