

Drew Milligan & Vula Malinga & Marcus Thompson

I was thinking back in the old days, you know
'Bout how we used to be
When we were playing just playing in the park and stuff
I remember that, baby can we take it back
Used to sit at the dinner table
Daydreaming 'bout how it would be
Used to run around hoping it was you that will always be there for me
But you didn't really notice me and you saw me as a friend
Always making me laugh, making me smile
Never wanted the day to end
Let me know if you feel the way I do
'Cause I always hoped one day that you'd come back my way
'Cause I never took the time to make you mine
I know that it sounds crazy
Baby I'm thinking that you and me maybe can we go
Back to the future
Talk about things that we used to do
Hanging out late on Sunday night
Mama used to call me back inside
Back to the future
Talk about things that we used to do
Standing at the corner with your friends
Wishing that day would never end
Back then, we were young at heart
Didn't know the meaning of love
Playing kiss-chase in the playground
With the sun shining high above
Now we're grown and we're much older
I was thinking maybe we could try
Getting to know each other once again
Baby you and I
Let me know if you feel the way I do
'Cause I always hoped one day that you'd come back my way
'Cause I never took the time to make you mine
I know that it sounds crazy
Baby I'm thinking that you and me maybe can we go
Back to the future
Talk about things that we used to do
Hanging out late on Sunday night
Mama used to call me back inside
Back to the future
Talk about things that we used to do
Standing at the corner with your friends
Wishing that day would never end
Back to, back to the future
Back to, back to
Lets take it back
Back to, back to the future
Back to, back to
Lets take it back
Back to, back to the future
Back to, back to
Lets take it back
Back to, back to the future
Back to, back to
Lets take it back
Back to the future
Talk about things that we used to do
Hanging out late on Sunday night
Mama used to call me back inside
Back to the future
Talk about things that we used to do
Standing at the corner with your friends
Wishing that day would never end

Back to the future
Talk about things that we used to do
Hanging out late on Sunday night
Mama used to call me back inside
Back to the future
Talk about things that we used to do
Standing at the corner with your friends
Wishing that day would never end
