

Drew Seeley, Loneliness

Loneliness why you wanna be with me, babe
I told you before is over between us
But you still come around much to frequently
Happiness something that I

I can't find whith you
We've been together for way to long
Trying to make it work
But now we're through

Her name was Loneliness
And she came into my life, alright
And I was by myself
Only when she was by my side

Loneliness say why you're knocking at my door
You know I'm not trying to let you win, no
I am the man you do know more
So turn around
Don't you look back at me
I've got someone (I've got someone)
Someone I love
And is you that showed me how to do it

Her name was Loneliness
And she came into my life
And I was by myself
Only when she was by my side
Together we will never know
A new day has gone and I'm moving on, so
Loneliness let me go

Her name was Loneliness
And she came into my life
And I was by myself
Only when she was by my side
She was by me side
