

# Dri, Gun Control

Automatic weapons were meant for the war  
But here they are right outside your front door  
Gangs and thieves are armed to the hilt  
Ready to kill without the guilt

Gun control  
We need gun control [2]

A shot rings out from down the street  
The gangs are restless from the night heat  
The cold, black metal has made them insane  
Killing each other is part of the game

Lock and load  
We need gun control [2]

The barrel of a gun at the back of your head  
Your money or your life is all that he said  
Do you want to die or live to be old  
Don't think twice about gun control

Lock and load  
We need gun control [2]

We were given the right to bear arms  
When our land was all ranch and farms  
The law is old and in need of updating  
There's no time time for hesitating

Lock and load  
We need gun control [2]
