## Dri, Tear It Down

Fighting this society, there's only one way to win We must stick together through all thick and thin Cross over the line of your stubborn, closed mind Don't be surprised at what you might find Things you thought wrong may have always been right You'll probably find fault in your reasons to fight You really don't differ from what i can see Ain't it time to unite, or is it just me? Just as we watch them build this empire So they shall watch us tear it down If not with our words, then with the power of our sound! Fighting this society, there's only one way to win We must stick together through all thick and thin Cross over the line of your stubborn, closed mind Don't be surprised at what you might find We are the future, so let's get things straight Combine our forces before it's too late Fighting ourselves can't go on any longer We must fight together if we want to grow stronger We can tear it down We must tear it down We will tear it down
