

# Dri, Worker Bee

You're a worker bee  
Can't you see?  
A cog in the wheel  
Of their factory  
You'll do what you're told  
Until you grow old  
Or you get laid off  
Because the company's sold

Change your mind  
To change the way  
You've lived up till now  
Go somewhere  
And have some fun  
While you remember how

They'll buy a machine  
Know what I mean?  
It punches your holes  
At twice the speed  
And half the cost  
Look at the boss  
A smile on his face  
He's laughing his ass off

Change your mind  
To change the way  
You've lived up till now  
Go somewhere  
And have some fun  
If you remember how
