

# Drifter, Principle Of Speed

I made an experience  
It just happens once in a lifetime

Speed this is the thing  
It's never been like this before

Cos you haven't felt it yet  
This product of time and distance

Now you feel a rush of speed  
Something you'll never forget

So take my hand! I lead you to a place  
Where you will feel the real speed

Slipping between time and space  
You will find a new dimension

Faster, faster we cut the air  
We break the walls of sound

Our thoughts are one, one is our aim  
Now we understand the principle of speed

We accelerate there's nothing  
To stop us now

All energy set free  
We give ourselves up to madness  
Spitting fire all around  
And thunder is pumping in your veins  
Now shifting to overdrive  
Flashing across the sky  
At breakneck speed we reach the limits now  
We'll never feel like this again  
Raging on to eternity  
But never forget the principle of speed
