

# Drist, Surfacing

I thought I fooled you all, here  
In this shallow surfacing  
A ring around it all, showing you  
This is all I know

Thought you gave it all, right here  
But I saw it go down  
You became it all, wants and needs  
And I saw it go

If you only could see

I can't give you up, if only I could  
I can't lift you up, if only I should

Wait here, I'm coming
