

Drivin N Cryin, Powerhouse

Lay down a pouch and I look up to the sky
I'm gonna reach up to the night for Madonna for the light
I'm gonna bring it downtown to show you how to go
I said "Now you're really jamin' when your band starts to flow"
At the powerhouse
You'll see me coming around at the powerhouse
You'll hear me coming around -

A little boy standing close to god you know
He never knew the lord until he found a powercode
Well the neighbors called the cops
They tried to shut it down but they couldn't get me in the door
Of the powerhouse
They tried to shut it down at the powerhouse
And now we're on the run
And now we're on the run
You'll see me comin around -

I'm in the eleventh door up on the right
Well I've got a rub off gun and a plastic knife to go
I'm gonna see you comming
Jump down turn around jamin' in another town
At the powerhouse
You'll see me coming around at the powerhouse
You'll see me coming around
You'll hear me coming around
You'll see me coming around at the powerhouse
