

# Dropkick Murphys, Do Or Die

The once steel tough fabric of a Union man Was sold and Bartered away  
Fed to money wolves in the Reagen years, Caught in a drift in greedy nintetie's days  
So inside this song is our rally cry

chorus: Your dreams are in danger, and "We Must Rise"  
Our time has come we are under the gun "It's Do or Die"

Its not a rebel cry of some socialist Scheme to push for human rights  
Just the facts an obvious mentioned on the  
Behalf of the working man, for his family and his livelihood

chorus:

The once steel tough fabric of the union man was sold and bartered away  
Fed to money wolves in the Reagen years,  
Caught adrift in greedy nineties days

chorus:
