

# Dropline, I Feel Lonely

once I should be careful of myself  
it's just the truth and nothing else  
what's the point to return  
what's the point

if I sit watching the furniture  
and bleed  
smile if you can depend on me  
to be lost in this womb  
to be lost

cause anyway I say these words are taken  
and i'm alone again with you  
say what you got  
I feel lonely  
I feel lonely

I don't need your help to fall apart  
I could feel stupid in the dark  
it's alright to be here  
it's alright

cause anyway I want to say these words are taken  
and anything I want to bring is surely maken  
and then i'm alone again with you  
say what you got  
I feel lonely  
I feel lonely

cause anyway I want to say these words are taken  
and anything I want to bring is surely maken  
and then i'm on my own again with you  
say what you got  
I feel lonely  
I feel lonely  
I feel lonely  
I feel lonely

(i feel lone)  
(i feel)
