Drowning Pool, All Over Me

Something I just might regret Something you will not forget Maybe I should throw away Everything I've learned today

All over me (8)

Pushing forward from the truth Maybe it's me and maybe it's you Sometimes I don't know myself 28 years straight to hell

All over me (8)

There's something changing in me There's something growing in me There's something changing in me There's something growing inside of me

Go away don't want this (8)

All over me (8)

There's something changing in me There's something growing in me There's something changing in me There's something growing inside of me

All over me (8)
