

# Drowning Pool, Hate

bury the priest and burn religion alive  
baptized at birth with the black brush's wine  
the uncrowned king unholy  
forget about the crucifix,  
my rising sign is 666!

can't you see the way they twist and turn  
you watch it burn  
just stand right here and watch the tables turn  
you want the world,  
i'll show the way,  
just raise your fist and let me here you say:

hate, you want it  
say hate, you need it,  
say hate, you want it  
come on, come on, come on, come on  
get it, get it, go!  
get it, get it, go

incarnation can bring down the stars  
five-thousand times and their service is ours!  
obscene, unclean, unholy  
the losers, dope-fiends, and don't forget  
the worthless, no-good piece of shit

come with me and we'll drink a toast to anarchy  
all we need is excess in ecstasy  
you want it all  
i'll know the way  
just raise your fist and let me hear you say

hate you want it,  
say hate, you need it,  
say hate, you want it,  
come on, come on, come on, come on,  
get it, get it,  
hate you want it,  
say hate, you need it,  
say hate, you want it,  
come on, come on, come on, come on,  
get it, get it, GO!

and though it's plain to see,  
in our society, all of us will bleed  
but your war is not with me  
there are many of those who oppose us [3x's]  
who oppose us [2x's]

all of this could always be the way that you would want it to  
come on and sell your soul  
it's what you want to do  
this could be the only way  
forget about the judgement day  
ignorance is bliss, so raise your fist and say

hate, you want it  
say hate, you need it,  
say hate, you want it  
come on, come on, come on, come on  
get it, get it, hate, you want it  
say hate, you need it,  
say hate, you want it  
come on, come on, come on, come on

get it, get it, go!

get it, get it, go[2x's]

come on, come on, come on, come on,  
get it, get it, go!
