

# Drowning Pool, Reborn

Yeah

Hands raised full of sin, this is where the story began  
As my halo, I'm scarred by where I've been

This aint over, till it's over  
This aint over, till it's over, yeah

The hell I've been through, I saw my face in the bottom of a bottle  
The hell I've gone through, to be reborn, reborn, again  
The hell I've been through, shot down, ran through, dragged through  
The hell I've gone through, to be reborn, reborn, again, again

Tear away, redefine  
Bring me down, this life  
Take what's wrong and make it right  
Crucified every time I tried

This aint over, roll me over  
This aint over, till it's, till it's over

The hell I've been through, I saw my face in the bottom of a bottle  
The hell I've gone through, to be reborn, reborn, again  
The hell I've been through, shot down, ran through, dragged through  
The hell I've gone through, to be reborn, reborn, again, again

This love, this hate, this game  
Don't want to remember  
Made numb, mute, unreal  
I can't forget, I can't forget  
No, I won't, I can't forget

Yeah, good god damn  
The hell I've been through, I saw my face in the bottom of a bottle  
The hell I've gone through, to be reborn, reborn, again  
The hell I've been through, shot down, ran through, dragged through  
The hell I've gone through, to be reborn, reborn, again, again

Reborn, reborn, yeah I'm reborn again  
I won't forget, no
