

Dru Hill, I Do

Does anybody stay together any more
Seems like love nowadays doesn't endure ooooh
We havent always gotten along
But I stayed cause I always saw this day
And I wanna say

[chorus]

Millions didn't make it (but our love)
One of the ones that did {ooooo yeaah}
I knew that we could make it {me and you baby}
Please be my wife, grow [old] with me {hooooooo}
Millions didn't make it (but our love) {ours was a love that}
One of the ones that did {we made it baby}
I knew that we could make it {i want you to be}
Please be my wife, be one with me

[verse 2: sisqo]

From the first time I saw you
I knew that you were god's gift to me
And I found my greater strength in you
Cause no one in this world
Was more precious to me than you baby

[chorus x 1/2]

[b-section]

I'm saying I do,
I do, I do [repeat x 6]

[bridge]

I'm gonna love you forever
Millions never made it
But our love did
