

Dru Hill, In My Bed

I got this feeling, and I just can't turn it loose
That somebody's been getting next to you
I don't want to walk around knowin' I was your fool
'Cuz being the man that I am
I just can't lose my cool

My friends keep telling me about the things that's going on babe
But deep in my heart baby I hope that I'm wrong
Yes I hope I'm wrong but I know it babe

Somebody's sleeping in my bed, my bed baby
Somebody's takin' my place (baby)
Somebody's sleeping in my bed baby
And you know just what I mean, oh oh oh oh oh!

I come home early expecting your warm embrace
But something is wrong 'cuz its written all over your face
It hurt so bad when I walked through the door
But 'cha know one damn thing baby I ain't coming back no more
No no no
Now don't try to tell me things are still the same
'Cuz when we made love I heard you call out his name, call out his name

Somebody's sleeping in my bed tonight baby
Somebody's takin my place
Somebody's sleeping in my bed baby
And you know just what I mean

Gave you money and every li'l thing that you need
I gave you the world (yes i did) 'cuz you were my girl
But you still ran out on me oh yeah

Said you're sleeping in my bed
Messin' with my head ooh
Tell me why, oh why oh why
Why oh why oh why
Why oh why oh why oh why oh why said you're
Sleeping in my bed
Messin' with my head

[ad lib to fade]
