

Dru Hill, What Are We Going To Do

what are we going to do
what do they gonna say
where we gonna go
when they find out
what are we going to do
what do they gonna say
where we gonna go
when they find out
i really don't know you well
you got to get to know me to
some say we can make this work
though your friends won't approve
see we can't let them know
exactly what's going on
cause they won't understand
what we have between us
what are we going to do
what do they gonna say
where we gonna go
when they find out (2x)
i know we may be rushing
there's no time to think it trough
cause when love overcomes your heart
there's nothing you can do
missery loves company
but now you should know
people alway's have advice of beeing together
when theyre all allone
(i cry) i cry late at night babe
(inside) inside my heart i was all alone
don't you let no goddamn fadet on me
and tair our love apart
cause i love you girl
you are my world
so what are we gonna do
what are we going to do
what do they gonna say
where we gonna go
when they find out
