

Dru Hill, You Are Everything (Remix)

Yo we gonna try something a little different
Yo make.. make my voice a little more distorted
Yeah I don't know if they ready for this
Uh dance uh uh dance uh uh dance uh uh dance
Uh uh verse

Last night we had an argument
Afterwards I'm feelin' pretty bent
Then I took a drink and I didn't think
What was in store for me

1 You don't know you don't know how she'll take it
Tell me what a simple man could do
Will she cherish your heart, will she break it
'cause you are everything and everything is you, sing

2 - You are everything and everything is you
You are everything and everything is you
You are everything and everything is you
You are everything and everything is you

Listen, baby don't want you playin' me
Lovin' me, holdin' me
Over and then ya play me, blame me, lately
You everything to me, wonder if truly
That our love is always

Repeat 1
Repeat 2

Break it down, oh

[Ja Rule]
Yeah huh, Ja Rule and Dru Hill, nigga
Baby girl, you tellin' lies
'cause when I look at you in your face
I could see I'm on your mind
And it don't matter what them hoes may say
I know your love is blind for me
Every bitch needs a thug nigga in their life
Truly, could it be, could it be
You enjoy me f**kin' you while you be lovin' me

Bitch destroy hoes mentally
That's why they freak with me, frequently
Love is life

[Nokio]
No nigga, life is love
Take her bad but just ice her up
Head for tour, tell her to keep in touch

[Ja Rule]
Nigga, that's what's up

[Nokio]
Being Nokio's a bit much
Y'all bitches overseas that love to f**k
Y'all bitches in the states that love to suck
What the f**k y'all want from me
Ghetto celebrity from B'more

[Ja Rule]

Murderer, Do Or Die from the N-Y

[Nokio and Ja Rule]
Now everyone get right

[Nokio]
N-O-K-I-O baby

[Ja Rule]
R to the U to L-E, baby
And yo, alotta y'all bitches hate me
'cause you can't relate to me
What the f**k you want from me?

[Nokio]
Made them hoes know now they think
I get rich and I get rearranged 'cause you know

You are everything

Repeat 2 until fade
