

Drugstore, Baby Astrolab

My baby astrolab
Let's go and take a walk outside
Before it gets too cold
I want you to hold me
And pretend you know
Every single secret this universe holds
Now and forever

My baby astrolab
My baby astrolab
Take my hand, take my heart

I hope you understand
That every single thing up there
Falls into nothingness

So come on baby astrolab
Let's get away before it's over
Now and forever

My baby astrolab
My baby astrolab
Take my hand, take my heart
