

Drugstore, El President

It came from the skies,
It burst through the gates.
With no mercy or disguise,
with their hearts set out in flames,
I know I've seen the master plan.
I'm just a man,(2)
I'm not giving in,
all the people understand
cause they all fell down and prayed,
I know I've seen the master plan.
They've killed the president,
they've killed the president.
It came from the skies, (2)
in all shades of green.
We can always justify,
we can measure up your dreams,
I know I've seen the master plan.
They've killed the president,
They've killed the president.
They've killed the president,
They've killed the president,
I'm just a man
