

Drugstore, I Know I Could

I feel stained and Im in pieces
In my mouth the sad taste of the past I had
A thousand wasted kisses
But another glass
And a cigarette
Just anything
To help forget the things that
Every day I still find missing
Let the whole world crash down on me
And let the curtains rise
I could do so much harm
I could do you no good
Ill leave a stain in your heart
I would
Yeah, Im gonna mess up your life
And make you forever blue
Cos I could hurt you
I know I could
I know I could
Misty haze and the final rest
They say the first shall be the last
But not for me
Cos I dont believe it
So another glass
And a cigarette
Just any man
To help forget the things that
Every day I still find missing
Let the whole world crash down on me
And let the curtain rise
I could do so much harm
I could do you no good
Ill leave a stain in your heart
I would
Yeah, Im gonna mess up your life
And make you forever blue
Cos I could hurt you
I know I could
I know I could
'Cos I could do so much harm
Yeah I could do you no good
Ill leave a stain in your heart
I would
Yeah, Im gonna mess up your life
And make you forever blue
Cos I could hurt you
I know I could
I know I could
