

# Drugstore, Perfect Movie

You could make the perfect movie  
You could hold the gun  
And everyone would love you  
They'd love you  
I'd hold you 'til the sun went down  
Then you could run away  
And never be lonely, Baby  
Even on a bad day  
You could say you never knew me  
I was going my own way  
Everyone would love to  
They'd love to  
I'd hold you 'til the sun went down  
We'd be the ones that got away  
And no I'll never be lonely, Baby  
Even on a bad day...
