

Drumsound & Simon Bassline Smith, Through The

Hold your hand
Can you feel as a sound come again?
I never feel so free
We made it through the night
We made it through the night
We made it through the night

Hold your hand
Let me feel you as a sun comes up again
Stop feeling _
Wy can breath _
Forget about the pain
We left _
And a darkness try to take us down
I never feel so free
We made it through the night
We made it through the night
We made it through the night
