

Dry Cell, Find A Way

They label us with deficiency
'cuz they could not pay attention
They were responsible at our age
That's why we live with infection

Yet we find a way to show that

Even though we don't know
what this life is about
sooner or later
we are all gonna figure it out
Even though we don't know
why we're living in doubt
we are!

Searching for answers inside this hole
Nothing to see but addiction
Hold onto something we can't let go
until we lead with conviction

Yet we find a way to show that

Even though we don't know
what this life is about
sooner or later
we are all gonna figure it out
Even though we don't know
why we're living in doubt
we are!

We thought we had it made
We fell in love with the song too long
We thought (we thought) we had (we had) it made
We fell in love with the song too long

Sooner or later
we are all gonna figure it out
Sooner or later
we are all gonna figure it out
Sooner or later
we are all gonna figure it out
We are!

Even though we don't know
what this life is about
sooner or later
we are all gonna figure it out
Even though we don't know
why we're living in doubt
we are!

(Chorus in Background)
We thought we had it made
We fell in love with the song too long
We thought we had it made
We fell in love with the song too long
