

# Dry Cell, Ordinary

I saw a vision of you [today]  
And I won't do anything to make you feel betrayed

Can't find the time to look inside  
And realize that I can't hide  
I can't be me unless you're there  
This situation's so unfair  
I look at you and tell myself  
That you're with me and no one else  
You need some help  
If not for you than for myself

It's hard to be honest with myself  
I need some time so I can figure out  
So I won't be ordinary [ordinary]  
I solved the mystery of you [today]  
And I don't show everything to everyone that way  
Can't find the time to look inside  
And realize that I can't hide  
I can't be me unless you're there  
This situation's so unfair  
I look at you and tell myself  
That you're with me and no one else  
You need some help  
If not for you than for myself

It's hard to be honest with myself  
I need some time so I can figure out  
So I won't be ordinary [ordinary]  
I solved the mystery of you [today]  
And I don't show everything to everyone that way  
I can't decide if I'm all right  
I feel inside I need some help  
But I'll deny the things I hide  
If not for you than for myself  
I know there's better ways to be

It's not easy and it's hard  
It's hard to be honest with myself  
I need some time so I can figure out  
So I won't be ordinary  
So I won't be ordinary  
'Cause I'm not ordinary
