

# Dua Lipa, CAN THEY HEAR US (piosenka z filmu

Every breathe that i take in  
Every step that i make in  
Ain't no way I can run without you

Every ghost in my past life  
Held my hand when i  
Carries me whn i wanna breaka through

We all die  
But right now  
I feel lile livin  
And we all cry  
But right now  
I am not gonna give in  
When we collide  
I know i can do anything  
Cause i got you, and you got me

Can they hear us?  
They been on my mind  
Mayne, i am delirious  
We all die  
But right now i feel like livin'  
Can they hear us?  
Can they hear us?

Anywhere that i turn to got me going in circles  
No matter what  
I'll make sure we get out

Cause  
We all die  
But right now  
I feel lile livin  
And we all cry  
But right now  
I am not gonna give in  
When we collide  
I know i can do anything  
Cause i got you, and you got me

Can they hear us?  
They been on my mind  
Mayne, i am delirious  
We all die  
But right now i feel like livin'  
Can they hear us?  
Can they hear us?
