

# Dua Lipa, Cruel

Cab radio screaming  
Noise and tears  
Death on the TV  
And then there's you  
Messed up, it's crazy  
I can't concentrate  
I just see your outline  
Mhmm

Back where we left off  
Watch you take your dress off  
I've been by myself remembering you  
Your body hurts me  
Loopin' 'round like CCTV  
In all this bitterness, you stay so sweet

Such a cruel world  
Savin' all my love for you, girl  
Uh, it's such a cruel world  
Maybe I found somethin' good, girl  
Uh-uh-uh-uh

Some creep at the party  
All scripts and boasts  
A dead eyed actress girl  
And then there's you  
Venus in Converse  
You put a spell on me  
And you're lockin' up the bathroom door for us

Back where we left off  
Watch you take your dress off  
I've been by myself remembering you  
Your body hurts me  
Loopin' 'round like CCTV  
In all this bitterness, you stay so sweet

Such a cruel world  
Savin' all my love for you, girl  
Uh, it's such a cruel world  
Maybe I found somethin' good, girl

It's such a cruel world  
Hey, hey, hey  
It's such a cruel world  
Hey, hey, hey

Sunrise in Hollywood  
We ain't slept for days  
Perfect disaster  
Me and you  
Oh-oh-oh-oh-oh

It's such a cruel world  
Savin' all my love for you, girl  
Uh, it's such a cruel world  
Maybe I found somethin' good, girl  
It's such a cruel world  
Savin' all my love for you, girl  
It's such a cruel world  
Maybe I found somethin' good, girl  
Uh-uh-uh-uh
