

Duck Daffy, Trapped Within

Here we are again running down the street
I see a scary guy coming towards me
His skin is pale and his eyes becoming dark
It looks like he has taken me and my soul gets left behind

Taking part by part my body drifts away
I think its in my mind, but the pain still remain
Although I never wanted my soul goes with him
Although I never wanted my soul is trapped within

chorus:
Take me down where I rather go
When I've been here long you want see me go
Trapped within!

Now i'm taken off to this rotten place
(Anger).. ohh there's nothing I can do
(Helpless).. Is my word, I do it all because, its in my mind
(Although).. I never wanted, my soul goes with him

chorus:
Take me down where I rather go
When I've been here long you want see me go
Take me down where I rather go
When I've been here long you want see me go

You want see me go!

Yeah! ...
