

# Duff McKagan, (fucked up) Beyond belief

&quot;This is a warning&quot;  
You got democracy, debauchery,  
and a communist regime  
They tore, that wall down just to  
keep people happy  
But it goes back up again  
The tax man cometh and he takes  
all your money away  
Tax bracket, what a racket  
They spend it like two-bit thieves  
The monster came up its ugly  
head  
And it's just enough to keep  
Your children fed?  
You stumble, you get up and then  
you heave  
Man, it's so fucked up beyond  
belief
