Hey, you, in the black boots  
Knee high with the Dazzey Duks  
Looking real fly while in cahoots  
In the park where I can meet you  
I'm Snow, here to relate to you  
What started the trend of them Dazzey Duks  
Ever since the summer of the 90s  
Girls had a deal with the future behind  
See many terms they use to express  
We're talking about the butt cheeks not the breasts  
Baby got back, junk in the trunk  
She got a six pack or a hell of a rump  
Yo, need some fries with that shake  
See many terms they use to relate  
I love the girls with the big old booties  
Right up front they call em Dukies  
Pretty brown cheeks hanging from the jeans  
Even city girls can be country things  
So if you get it got it good to dip to dug out  
Dem damn Dazzey Duks are turning out  
Sing!

They really got it going on  
Yeah they be kicking it sweet  
While all the brothers show thier freak  
And check out the way they step  
Make a brother wanna think about sex  
Especially when they have nice legs  
And they're tan to the top all the way  
But it don't matter what kinda legs you like  
Still be kicking if those legs are lily white  
So it makes no difference to you  
As long as you're kicking them Dazzey Duks
