

# Duit, All The People (feat. Jesse Boykins III)

We come so far

All The People  
All The People  
All The People  
They don't know each other  
But they NEED you  
I say  
No equal;  
No equal;  
No equal;  
But I do reflect  
To know your truth

[?]

When you brings this  
[?]  
Don't you dare ignore  
Don't you keep you for  
Keep your eye on the us  
[?]  
When you

The People  
They are like the weather

The People  
The People  
The People  
They were all [?]

You said  
Nobody knows  
So there's nothing to go  
But the people  
They like the weather
