

Dum Dums, Caught Me In A Trap

Nothing, nothing is going on in my mind
All that I know is I'm getting nothing done
Getting nothing done
Wasted, roaming the highways and feeling low
Wasting my life and I'm getting nothing done
Getting nothing done

As it's caught me in a trap, there's no going back
Future up ahead, I am on the rack
Pulling out my hair, but it's making it worse
Cos everyday I live is another day wasted

Lessons, lessons I've learned in my history
Have had no effect and I'm getting nothing done
Getting nothing done
My schoolbooks, taught me to think like the multitudes
And I'm just a clone and I'm getting nothing done
Getting nothing done

As it's caught me in a trap, there's no going back
Future up ahead, I am on the rack
Pulling out my hair, but it's making it worse
Cos everyday I live is another day wasted

On Monday, I get my dole and go to bed, yeah
On Tuesday, skip work and watch TV instead
On Wednesday, I go out walking in the rain
And then comes Thursday, Friday, Saturday, Sunday
Monday comes again...

As it's caught me in a trap, there's no going back
Future up ahead, I am on the rack
Pulling out my hair, but it's making it worse
Cos everyday I live is another day wasted
