

Dunnery Francis, Home In My Heart

Lord have mercy on me
Reading too many newspapers watch too much TV
and it gets to the part where the black lady says
"We're gonna go down with the money we're spending
now"
Now I don't wanna sound like your savior
and I don't wanna represent blue but
where ever you go where ever you are
You got a home in my heart
Lord take a look at my home
Too many afternoon talk shows and crap on the phone
and it gets to the part where the old lady says

"We'll never be happy with the money they're giving us
now"
Now I don't wanna sound like your savior
and I don't wanna represent blue but
where ever you go and where ever you are
You got a home in my heart
