

Durp, Hey You

If you're gonna jump, hey you hang on

If you feel like giving up, hey you hang on

Won't forget today sun is bright, sky is blue yeah

The pain will go away in another year or two

If you got a phone, hey you call home

If you got a voice, hey you rejoice

Won't forget today sun is bright, sky is blue yeah

Won't forget to pray day is night, world is new yeah

Pain will go away in another year or two

In a hundred years or two

If you're gonna fly, hey you don't cry

You gotta live to die, hey you goodbye

Won't forget today sun is bright, sky in blue yeah

Won't forget to pray day is night world is new yeah

Pain will go away in another year or two

In a hundred years or two

..In a thousand years or two
