

Dust For Life, I Don't Mind

Lover make her naked still but nothing shows
No time no place one will be as one does fake
No gift no need so you try to bring me down
A promise a joke laughing on my suffering

I don't mind
I know why you hide
I don't mind
I know the why of your disguise
I don't mind
I know the why and I don't mind

Choking sickness looking on as I am raped
Bleeding crawling pointing out my every mistake
So you go down and you think your lie won't show
Breeding feeding taking in the enemy

Chorus

Is she gone all because I am all wrong
Is she gone all because I am all wrong
I don't mind
Gone to far to come back
Is she gone

Chorus
