## Dust For Life, Where The Freaks Go

Yeah I wanna go Where the freaks go Somewhere way down low Yeah I wanna be wasted Burnt down Where the wick burns brightly

Goodbye my friend You'll never be down again Goodbye my friend Yeah You'll never be down again

Yeah I used to wonder why You wanted to live and die every day Yeah you couldn't be The bright winged butterfly Black wings on a black sky

## Chorus

And I wonder Oh why Oh why Yeah (Oh why) Oh why

What I forgave put my ass on the line Lies came to life that truly blew my mind I trusted you I paid hell to get through (x4)

Goodbye my friend You'll never be down again Goodbye my friend
