

Dusty Springfield, I Had A Talk With My Man Last

(Davis / Caston)

I had a talk with my man last night
He reassured me everything was still all right
As the night grew light
My blues got bright
He made me know
I was the star of the show

He said he was mine all to myself
And I won't, and he won't, ever need nobody else
He took me in his arms
And turned on my love
Ooh, yes he did, yes he did, yes he did, oh, oh
I had a talk with my man last night

He said never again lonely would I be
And that's when he asked to marry me
I began to cry
He kissed the tears from my weeping eyes
Oh, yes he did, yes he did, yes he did, oh, oh
I had a talk with my man last night
