Dusty Springfield, Let's Talk It Over

(Kenneth Gamble / Leon Huff)

(Talk it over)
(Talk it over)
You seem to think that everything is more important than me, baby As if to think my world would be lonely without you on the scene Oh, it's about time I moved up the ladder Got to be number one or nothin' at all Let's sit down, talk it over Take that finger from your face Look at me for goodness sake Talk it over, hey, talk about it

I do everything I can to make life easy for you, baby But you take me for granted What is our love, our love comin' to?, oh It's about time for us to have a talk And maybe I'm not satisfyin' you boy You gotta tell me 'cause this ain't right Why ain't you oh-be holding me tight?

Let's sit down, talk it over Take that finger from your face Look at me for goodness sake Talk it over, talk about it, baby I said let's talk about it, baby Ooh, talk about it, baby

Let's talk it over, yeah
Hey, talk it over
Hey, baby come on over here
Talk it over with me, baby, yeah
Hey, talk it over, baby
Talk, talk, talk, talk it over
Talk, talk, talk it over with me
Hey, talk it over
