## Dusty Springfield, Roll Away

(Will Jennings / Martee Lebow)

Everyday when I look in the mirror I try to see where my soul's at now Happy day - is it further or nearer? On the way, will I find it somehow?

Yesterday's gone Love lead me on, oh I won't ask why

Roll away - it's only time and the river Roll away - to the endless sea Roll away - it could all change tomorrow This is life in it's glory And the river runs free Roll away

My dreams build the walls of the city Broken hearts tear them all down It ain't always easy and pretty It's just the world turning around Give us this day Give us this night, oh It'll be all right

Roll away - it's only time and the river Roll away - to the endless sea Roll away - it could all change tomorrow This is life in it's glory And the river runs free Oh, roll away

Everyday when I look in the mirror I try to see where my soul's at now

Roll away - it's only time and the river Roll away - to the endless sea Roll away - it could all change tomorrow This is life in it's glory And the river runs free

Roll away - it's only time and the river Roll away - to the endless sea Roll away - it could all change tomorrow This is life in it's glory And the river runs free Roll away, ahh, oh Ahh, ha, ho
